When **D** ever I chance to **D7** meet, some **G** old friends on the | street
They **A7** wonder how does a | man get to be this **D** way |
I've | always got a smilin' **D7** face, **G** anytime and any | place
And **A7** every time they ask me | why I just mile and **D** say **D↓**

You've got to **D** kiss an angel good **A7** mornin'
And **G** let her know you think about her **D** when you're gone **1/2D**
D Kiss an angel good **A7** mornin'
And **G** love her like the devil when you **G↓↓** get back **D** home |

Well, **D** people may try to **D7** guess, the **G** secret of a' happi | ness
But **A7** some of them never | learn it's a simple **D** thing |
The | secret I'm speakin' **D7** of, is a **G** woman and a man in | love
And the **A7** answer is in this | song that I always **D** sing **D↓**

You've got to **D** kiss an angel good **A7** mornin'
And **G** let her know you think about her **D** when you're gone **1/2D**
D Kiss an angel good **A7** mornin'
And **G** love her like the devil when you **G↓↓** get back **D** home

D Kiss an angel good **A7** mornin'
And **G** let her know you think about her **D** when you're gone **1/2D**
D Kiss an angel good **A7** mornin'
And **G** love her like the devil when you **G↓↓** get back **D↓** home
